Events and Activities

• Participated in a mini hackathon, where I had the opportunity to connect with Tariq Al-Awza, a programmer currently at Apple.

Projects

Portfolio
• Developed an interactive website using React that offers a smooth and unique user experience. The website features responsive design, fast loading times, and an intuitive user interface, showcasing my web development skills.

Weather App
• Created a weather application that provides real-time updates for selected cities using JavaScript and API integration.

Currency Conversion Tool
• Developed a tool for converting amounts between different currencies based on real-time exchange rates relative to USD, utilizing JavaScript and API integration.

Product Management System (CRUD)
• Designed and implemented a web-based interface for basic data operations (Create, Read, Update, Delete) using JavaScript.

Languages

• **English:** Intermediate (B1)
• **Arabic:** Native
